The Dimmer View

BY MAX GOODWIN

Assembly-candidate Bill Shearer, a staunch supporter of Bill Knowland, and his right-to-work philosophy, spoke recently at a union hall in downtown San Diego.

He was peppered pretty good by his audience after he stated categorically to them that he favored legislation that would give the employe the privilege of saying he wanted to join a union or not.

"These are my sentiments and I bring them to you so you'll always know where I stand," Shearer said.

Some of the listeners growled that Bill had uncertain parentage because of his stand on the issue and threatened to circulate through Bill's district to alert the rank and file of it.

Snapped Bill, "You may tell them that I'm an s.o.b. because of my convictions but you'll never be able to say I'm a liar."

I'm with Bill.

With taxes growing more oppressive and bookkeeping relating to tax paying more complicated, it was a welcome change to get word that persons making $10,000 a year in wages may now use the short form for reporting income taxes to the Federal government. Formerly, the simplified method was restricted to use of persons earning $5,000 a year or less.

As welcome as the step is I hardly think it justifies the Internal Revenue Service being carried away as they were in a press release announcing the "break."

The announcement opens by breathing ecstatically, "Happy days are here for 778,000 Southern California taxpayers . . ."

I talked to three of four local taxpayers after I read the material and none admitted to en-

Executive Tells Club LG Still Fastest' Area

Charles Kerch, manager of the commercial business property development department for Curtis Coleman Associates, told the Lemon Grove Chamber of Commerce Thursday that no community had taken away from Lemon Grove the reputation it earned as being the "most dynamic and the fastest growing community" in the county.

"We sometimes advise our clients who have multiple operations to spread their holdings wider, geographically, and this may leap-frog Lemon Grove in some instances, but the consideration is geographical only," he said.

"Lemon Grove has more foot traffic on the south side of Broadway in the Kempf-Imperial block than center Chula Vista," Kerch said.

Chamber members announced that keys to the "City of Lemon Grove" would go on sale this week, or as soon as the souvenirs were delivered. The keys are plastic and have a built in thermometer. They are suitably stamped.

Highway 80 Meet Slated

The State Division of Highways will conduct a meeting Thursday of this week at 7:30 p.m. at the Jacumba elementary school, in Jacumba, to outline proposed routes for a new four-lane Highway 80. Highway Division engineers will present recommended routes to the public meet and answer questions about the proposed project.

Fifth High School To Be Built In Lakeside

The fifth high school in the Grossmont high school district is scheduled to be finished in time for the start of school in 1959. At the regular monthly meeting of the GUHSD Board of Trustees, Ass'nt. Supt. Harold G. Hughes reported that the complete plans for the newest high school in the district to be located in Lakeside were awaiting the approval of the Division of Architecture. The board approved advertising bids for construction of the initial project in late October with construction to begin in November. Completion date has been set for September, 1959. Facilities for 1600 students will be provided at an estimated cost of $11 per square foot. The school is master planned for 2,000 students. The board learned that construction of the new school would be possible by use of $375,000 in Federal funds and $1,400,000 from proceeds of local bonds which the board authorized to be sold as soon as possible. This will enable the construction to proceed without the potential delay which might have been encountered had the project been submitted for financing under a state loan.

Hughes also reported that reconstruction of the music facili-

Council Race Forms In Demand

Business was booming this week at the office of this newspaper. More than a dozen citizens, some who didn't identify themselves, requested and received, free of charge, nomination papers for candidacy as councilmen for the proposed city of Lemon Grove.

A large supply of the forms is still on hand and are available to anyone wishing to run.

These nominating petitions must be circulated between the 75th and 45th days prior to the election.

The election will be November 25.

Last Day For Vote Registration

Thursday of this week is the last day for voters to register for November elections.

Mrs. Betty Robinson, deputy registrar of voters, will be at Stan's Market in Spring Valley today from 10 a.m. to 1 p.m. and at Rexal Drug Store in Lemon Grove from 2:30 p.m. until closing time.

CONGRATULATIONS—That's what Don Wenzel, Lemon Grove Optimist Club president, is saying as he presents an American flag which flew recently over the capitol at Washington D.C. to Mike Krauss, Scoutmaster of Boy Scout Troop 168. Looking on are, from left, Robert Wilber, assistant Scoutmaster of Troop 322; Kraus, Don Burnworth, Scoutmaster of Troop 108; Jack Moscrop, club vice president; Dr. Lloyd Adams, District 14 boys' work chairman, and Wenzel. The flag was presented to Troops 322 and 168 for winning an Optimist Club sponsored achievement contest held from April 1 to September 1. The troops participation in camping, community activities such as the Fiesta at St. John of the Cross church and fund raising carnival at Lemon Grove junior high school for a municipal swimming pool, and acquiring the most merit badges during the contest period, won the judges' nods of approval. The REVIEW secured the flag through Representative James Utt who had the flag flown over the capitol.

An increase of 46½ cents for Lemon Grove grade schools was approved Monday night by the Lemon Grove Elementary School District board of trustees. Last year is was $1.9031. This year the rate is $2.37 to which the high

BAD BREAK LAST YEAR IS GOOD FOR TAXES NOW

Elementary school tax rate in La Mesa is $2.29; in El Cajon $2.01. Both these rates are about 10 cents lower than the budget indicates due to a credit resulting from failure of the county to credit certain repayments last year. Both districts got the credit this year. These rates will probably be in line with Lemon Grove's rate next year, officials of the two districts said.

Shopper Misses Money Prize, Expects Baby

There was $600 in the jackpot last week when the name of Mrs. Adam Stevenson of Lakeside was drawn from the huge revolving drum. She was not present at the 3 o'clock drawing because she was home making ready the nest for a new arrival, her first baby.

Mrs. Stevenson, wife of a navyman, could not collect because the rules are the winner must be present. She will receive $5 as a consolation prize, however. The Jackpot goes up to $700 this week, according to Earl Nelson, chairman of the Boosters Club, a merchants group which offers the money prize every Thursday at a drawing in the plaza in Lemon Grove.

"The coupons are given to everyone shopping in our community," Nelson said. "It is not necessary for anyone to invest a thing to be eligible for the prize. Only those present at the weekly drawing may share in the larger prize but a consolation prize of $5 is sent to an absentee winner. There is no cash consideration involved in our promotion," he said.

Mrs. Stevenson said she became a regular shopper in Lemon Grove when a friend started to work at a local shoe store. "We have been shopping there ever since," she said. "We'll be shopping for baby things beginning right away," she confided. "we expect a baby next month . . . a boy."

All merchant participants have signs in their windows indicating that eligibility coupons will be given to each shopper.

UF Drive To Be Punchy, Short, Says Official

The United Fund campaign will be hard hitting but short, Ernest Yahnke, U.F. Drive speaker told the Lemon Grove Men's Club Friday.

He said no money would be solicited for the Heart, Polio, Muscular Distrophy and Cancer Fund Drives although funds would be accepted for them and turned over to the designated group. As a result the goal has been reduced to approximately $3,000,000, about one million dollars less than last year. The drive will start September 15 and will be completed October 29, he said.

A multiplicity of drives is again threatening the one fund-one drive philosophy in San Diego, Yahnke said. If we fail this year it may well be the end of a united fund effort, he explained.

"Only the contributor can dictate the number of campaigns in any given community," Yahnke said.

The club this week will hear a stump-shaking speech by Hugo Fisher, Democratic candidate for the office of state senate.

The club meets at noon on Friday at Michael's. All men are invited. Membership is not compulsory.

Another Major Br'dway Property Sale Made

The purchase of another major business property was announced this week when Dan Thren, local realtor, in concert with a group of eastern investors, purchased 150 feet on the north side of Broadway between Buena Vista and New Jersey avenues.

The purchase was made from Frank Stelley, who lives on the property at 7558 Broadway. Purchase price was estimated to be $50,000.

Thren said the property, which is 300 feet deep and runs to Lemon avenue at the back, would be developed before the end of the year. Professional offices with more-than-average off-street parking is being contemplated for the first improvement, Thren said.

Last week sale of the northwest corner at Broadway and Main streets was announced. This will be developed by the Southland Savings and Loan Association for their own facility plus some offices for rental, according to John A. Davis, president of the firm. The investment in the latter case was not revealed.

Rezoning Asked For 127 Lemon Grove Acres

SAN DIEGO (CNS)—A public hearing on zoning changes for 127 acres in the Lemon Grove area will be held Friday morning by the County Planning Commission in Civic Center.

The zone change is being asked by Bollenbacher and Kelton for a subdivision it proposes to put in on land north of Jamacha road and west of Sweetwater, near the former La Presa airport. Adjoining land, now in the Lemon Grove zoning district, is also being developed by the same firm.

The zone changes asked are R-1-A, which permits dwellings for one family to be built on 6,000 square feet in area, and to R-3, the zoning for apartment houses.

The commission is also holding a hearing Friday on 15 changes proposed in the county's zoning ordinance. Most of the changes are the result of needs revealed over the last several years, according to Dr. Willis H. Miller, county planning director. He also said some are to clarify existing laws.

Four of the amendments apply to pet shops and aviaries, clarifying the distinction between them and making both permissible in C-1 zones. In addition, under the proposed changes, ownership of 25 ornamental or song birds, even as a non-profit hobby, is to come under the "aviary" category and be subject to its regulations.

Church To Sponsor Nursery School

A cooperative nursery school, sponsored by the First Congregational church, is scheduled to open next Tuesday at the Lemon Grove Friendship Hall, Mrs. Elizabeth Bunch, head teacher announced this week. Orientation Day is set for Saturday of this week. The school is one of two in the San Diego area.

Licensed for 40 pre-school children, the school will be held three mornings a week during the school months, for six years, Mrs. Bunch pointed out. The nursery school is designed to help mothers to better understand their children.

Registrations will be accepted through Saturday of this week. For additional information call Mrs. Helen Carlisle, HO 9-8819.

Couple Sells Local Radio & TV Firm

Edna and Bert Snyder, among the first-comers to the business community of Lemon Grove, announced this week that they have sold their Lemon Grove Radio and Appliances, 7973 Broadway to a former Grovan, Bob Gallandt.

Mrs. Snyder has taken on a teaching project in Brawley and will reside there. Bert will remain here to take care of the couple's home at 8271 Lincoln avenue and to keep busy at his job with Air Force procurement at Ryan Aircraft.

"Brawley isn't so far that we can't see each other almost as often as when I was tied down in the store," Mrs. Snyder said. "There is such a shortage and so great a need for teachers that I couldn't resist filling the teaching post in Brawley," she said.

A farewell luncheon was given by members of civic organizations for her Monday.

180 Acres Added To Water Group

The County Boundary Commission Wednesday of this week approved annexation of 180 acres to the La Presa County Water District. The land involved is part of Rancho de la Nacion.

PICTURE TALK

ONLY MAKE BELIEVE

Funny what a grown man will do. I was checking my display case of movie cameras this morning when I picked up a Brownie Movie Camera to polish some fingerprints off the chrome trim.

Out of habit, I guess, I snuggled the camera into my right hand, raised it to my eye and looked through the viewfinder. All of a sudden I found myself taking make-believe scenes with the Brownie Movie Camera.

Bob Vaught

Kids started running through the spray of the garden hose . . . neighbors were clustered around the bar-b-que . . . in the middle of the store no less. I shook my head a little and continued "shooting." Next there was a birthday party and then a family get-together. The store was really getting crowded.

I don't know how long I kept this up, but when the mailman came in I guess I looked silly standing in the middle of the store playing "make believe" with an unloaded camera. He muttered something about, "This guy's working too hard," set the mail carefully on the counter, and tiptoed out.

I guess I was working hard but not too hard. Taking movies, even make-believe ones, is fun.

Sheriff Bert Strand reported this week that the San Diego county Sheriff's Reserves had put in a total of 15,679 man hours of volunteer service the first six months of the year and that applications are being accepted for a new reserve training class.

Strand said the work load was distributed as follows: Border check stations, 2591 hours; patrol car service, 1976 hours; training periods, 7763 hours, and miscellaneous service, 3300 hours.

So far the second half of the year appears to demand an even heavier work-service schedule from the men. At the recent picnic-barbecue for cerebral palsy victims in San Diego county, the reserves contributed 1134 man-hours.

Additional information concerning reserve applications may be obtained from Training Officer Lt. Quentin Cash, BE 3-0121.

GHS Opens 'Employment Agency'

A student work experience program for high school students of the Grossmont Union high school district, (El Cajon Valley, Grossmont, Helix, and Mt. Miguel high schools) is operating for the first time as school opens this year. The office, located on the Grossmont campus, is under direction of Mrs. Virginia Clapp, work experience coordinator, who will seek to place students who wish to work in jobs in the community. Students can receive school credit for their on-the-job training if they also attend related classes such as business English, arithmetic, bookkeeping, or salesmanship.

"The purpose of this work experience program," said Mrs. Clapp, "is to help the student explore the demands of the work world and help him choose his own career more wisely." The program operating in other parts of California has lowered by 17 per cent the number of students who drop out of high school and has brought up school grades. The experience also shows students the need for further study and helps the school develop a community-wide program.

The newly coordinated work experience program is a result of a survey of local businessmen made in May under direction of Dr. Fred Tidwell, then Grossmont coordinator, in cooperation with the State. Eighty-two per cent of the business contacted said they were willing to give a student learner an opportunity to work after school hours in a suitable job. Employees listed dependability, initiative, and interest in work as traits they would find desirable in a student worker.

Business men interested in employing a student from one of the four district high schools may call Mrs. Clapp at the District office, HO 6-4155.

School Aid May Get Axe

The state's "difficult fiscal position" poses a threat, both to the educational system and to the property taxpayers, Assemblyman Sheridan Hegland told a group of La Mesa teachers Saturday.

"Indications are we'll have a deficit state budget next year, and the axe might fall most heavily on state payments for school support. This probably will result in steeper property taxes, which are already too high," Hegland predicted. He is a member of the Assembly Education Committee.

Source of most school payments from Sacramento to local school districts is the sales tax, which he said was "most fair because everyone pays sales taxes."

Property taxpayers, parents and teachers have a point interest in proper assistance from the state level, he said.

"With school enrollments higher than ever this fall, any reduction in financial assistance from Sacramento almost automatically will lead to spiraling local taxes on homes and small business," Hegland added.

Paul Reynolds, business manager for the Lemon Grove school district, said schools would have to seek revenue from some source other than property should state aid falter. "Lemon Grove property owners simply cannot stand added taxation," he said. "We are resisting, as best we can, the widening gap being caused by a lessening of state aid. This has been a growing financing headache in recent years," he added.

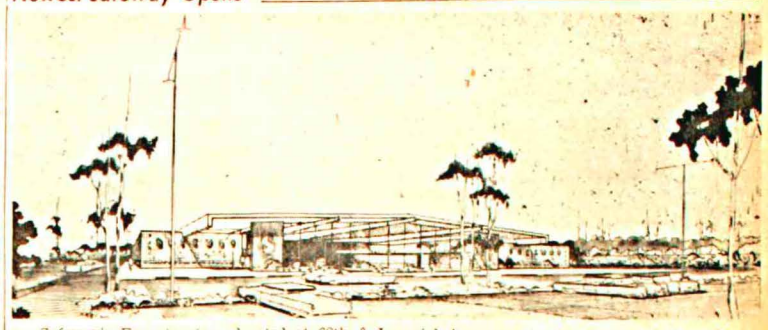
Newest Safeway Opens



Safeway's Encanto store, located at 68th & Imperial Avenue, represents a new departure in achitecture in Safeway stores. Designed by San Diego architects, Tucker, Sadler and Bennett, and constructed by the local firm of R. E. Hazard, Jr., Incorporated, the firm's newest store features a gable roof design, large glass windows and Safeway's monad "S" on the front glass mosaic. The store opened for business this week.

The building is 150 by 100 feet and has parking spaces for approximately 100 cars. With approximately 10,000 square feet of sales-room area this store will have on display adequate quantities of a wide enough variety of merchandise to satisfy the most exacting customer.

Featuring extra large dairy and beverage display cases, the store will have a check cashing booth, magic carpet self-opening doors, seven circular moving counter checkstands and 140 feet of frozen food and ice cream cases. It also features music and air-conditioning.

Meat, produce and dairy cases are rear loading which makes shopping more convenient for customers and prevents congestion caused by store crews.

Safeway officials said they were glad to bring to this fast growing neighborhood a new store that will be an asset to both the community and to Safeway, according to Merle Montle, local Division Manager of the firm.

Roland D. Smith, former manager of the Safeway store in La Mesa, will be in charge of the operation of this store. Al Stegman will be Meat Department Manager, Darrell Wantoch, Produce Department Manager, and Tom Wallace, Assistant Manager.

Safeway has two additional stores under construction that it plans to open within the next 60 days.

TIRED FOLIAGE

When the leaves on your rose bushes or any of your plants or shrubs begin to turn pale in color as the season draws toward a close, spray or sprinkle them with common everyday epsom salts mixed with water in the proportion of: 4 ounces epsom salts to 3 gallons water.

The foliage absorbs magnesium from the epsom salts through the breathing spores of the plants and the residue runs off into the soil and is accepted by the little fiber roots. Lack of magnesium is one of the principle reasons for pale foliage. An additional measure of correction is to pour a good trace element product into the soil to correct the condition on a more lasting basis and to fortify plants for the remainder of the fall.

Safety Council Warns Motorists About Children

A record number of children are going back to school this week, the San Diego County Traffic Safety Council warned motorists this week.

"Expect the unexpected where children are concerned warned Myron Kaminar, "All the safety rules they have been taught may have been forgotten during the summer and it will take several weeks to refresh their memories."

"Drive slowly, especially in residential areas and school zones," Kaminar warned. "Be alert to all signs, signals, traffic police, and school patrols. Drive as if every child were your own."

"Last year over 4,000 children under the age of 15 were killed in motor vehicle accidents across the nation. In this grim figure is a challenge to each one of us, regardless of our occupation. As adults we are responsible for the well-being of our children, and it is our job to help them adjust to the fast moving world around them," Kaminar said. "Much of children's learning is by imitation, so make your daily traffic habits a picture that they can safely copy. As your youngsters grow up, teach them to accept an increasing amount of responsibility. Persistent and consistent instruction and responsibility can later be transferred to such things as bicycles and cars."

The course is unique, in that it will be held after the regular school day is concluded and will be open to both high school students and their parents.

Free Parents Classes Being Held By Hospital

Free Classes for expectant parents, sponsored by the American National Red Cross and the Paradise Valley Sanitarium and Hospital held the second and fourth Tuesday of each month, 7:30 p.m. began Tuesday of this week.

The classes, held in the hospital assembly room in the Nurses' Home, 2575 East Eighth street, National City, are designed so that expectant parents can start at any time. Classes are continuous.

Married Students May Attend High School

The Grossmont high school district board of trustees has adopted a policy of permiting the continuation of married students in school as long as attendance, scholarship and conduct are satisfactory.

The board also empowered the principals to suspend from activities or from school whenever attendance, scholarship or conduct becomes unsatisfactory.

The board referred several legal problems in connection with married students to the County Counsel.

The policy stated that the school has a responsibility through its educational program to support parents in discouraging early marriage because the records show a much higher degree of failure for early marriage. However, a student who marries is entitled to encouragement in efforts to continue his educational program if his attendance, scholarship and conduct are satisfactory.

Kuchel Named To NATO Post

WASHINTON (Spcl.)—For the third successive year, United States Senator Thomas H. Kuchel of California will be one of nine members of the upper chamber of Congress representing the States at the annual parliamentary conference of North Atlantic Treaty Organization countries.

Following final adjournment of Congress recently, Vice President Nixon designated Kuchel, who succeeded him in the Senate seate, as a member of the delegation which will go to Paris for the meetings of legislators from all NATO signatory nations. The sessions this year will be held November 12-16.

The purpose of the conference is to consider ways in which legislatures of the different countries can strengthen and help carry out policies and programs for mutual security and development of the nations which subscribe to the North Atlantic Treaty.

Dinner To Kick-Off First VLM PTA Affair

The Parent-Teacher Association of Vista La Mesa elementary school will usher in the 1958-59 season with a get-aquainted pot-luck dinner this week on Thursday at 6:30 p.m. in the school cafetorium.

The program will feature community singing led by Mrs. C. W. Jenkins and games led by Mrs. W. L. Ericson. A new topic this year will be "The Principal Speaks" by Clarence Allen.

Mrs. A. C. Olsen, president, will preside at a short business meeting. J. W. Forrer will give the invocation. Colors will be presented by the Playing Bluebirds, Mrs. Robert Strand, leader.

Hostesses for the evening will be Mrs. Mesner, Mrs. R. W. Johnson, Mrs. Berry and Mrs. Piepenbrink, 6th grade room mothers.

Mrs. R. Christiansen, hospitality chairman, announced there would be a coffee hour September 4, at 10:30, in the school cafetorium. The serving of coffee and rolls will offer a break to busy teachers who have been preparing for the first week of school.

Clarence Allen, principal, will introduce teachers and Mrs. A. C. Olson, president, will introduce board members.

ties and a physical education room at Grossmont had been delayed by factors beyond the control of the contractor.

Construction of an 11 classroom addition at El Cajon Valley High is proceeding on schedule.

The board discussed policy on the size of the schools and indicated continuation of policy of planning for 2,000 students with provisions for expansion beyond that in case of necessity.

Estimated enrollment in the four district high schools is expected to exceed 8000 or over 1000 more than last year. Heaviest enrollment is anticipated at El Cajon Valley and Grossmont with 2400 each. Mt. Miguel will face an estimated 1850 while Helix High will be the smallest with 1500.

Flowers Film Slated At Milk Goat Meeting

A film, "Wild Flowers of the West," will be shown this Sunday at 2:30 p.m. during the monthly meeting of the Southern California Milk Goat Association, at El Cajon Valley high school, Madison and Mollison streets, El Cajon.

The film, shown by the Richfield Oil Corporation, will be preceded by a talk by a Richfield representative.

The Dimmer View

(Continued)

joying any of the IRS-apportioned "happy days."

We're not easily deterred, however, so we'll keep looking.

Comes an omnious warning from Assemblyman Sheridan Hegland in a speech in La Mesa last week that steeper property taxes are probably in store for the tax-weary home owner.

He says there will probably be a State budget deficit next year and the axe migh fall most heavily on the State school aid program.

"This will reseult in steeper property taxes, which are already too high," Hegland reports.

School aid now comes from sales tax, and there is a proposition (Prop. 17) on the ballot this fall to reduce this tax one third. The state now gets three cents, counties and cities, one cent. Proponents want the state's share cut one cent and the books balanced by increasing state income taxes.

Hegland says sales tax is "most fair because everyone pays sales tax."

If proposition 17 passes in face of a deficit budget we're in for some rough tax times next year.

In any event, the budget deficit should be a basing point on which every school district should examine if such is not already the case.

Few of our readers, I suspect, know that Robert Minckler made a speech in Los Angeles last month. Minckler is president of General Petroleum Corporation and he talked about the 1958 "Depression," a topic almost guaranteed to put an audience to sleep.

Ordinarily, the emanations of oil tycoons are at a level too high for my intellect and interest but Minckler made sense. His theory was developed at a level you and I can understand.

I read a copy of his talk, together with its summation, and decided to offer it here because it could be a program by which we could get back on the road of private enterprise, world respectability and democracy. The summation:

1. Adequate relief for personal suffering resulting from depression.
2. An adequate supply of money and credit to meet requirements, but not an excessive supply which will promote inflation.
3. No reduction in taxation or increases in government expenses which will result in massive deficit financing and inflation.
4. No action to give socialistic schemes of operation advantages over private enterprise.
5. Eventual elemination of wasteful government operations such as farm price support.
6. Secure access to foreign sources of raw materials of which we are now or will be in short supply. This means extension of the reciprocal trade agreements and foreign economic aid programs.
7. Labor legislation to remove the legal immunities of labor unions, to bar labor unions from political action and to establish democratic process in the internal organization of labor unions.
8. A recognition of the fact that we must have Big Business to perform the functions which only Big Business can handle.
9. Make personal thrift again popular, by improving opportunities and rewards for saving.
10. Restore the respectability of profit making .
11. Resist at every step the pressures of inflation.

Most of these make sense to me and the fact they are needed make it shocking to realize how far we have drifted from basic principles of Americanism.

Proposition 5, one of the many propositions you'll be voting on in November, is one of the cutest ones to reach my consciousness.

It is an assembly sponsored bill providing occasional raises for assemblymen.

Boiled down, it proposes that assemblymen shall receive wages at the same rate as the average wages for county supervisors of the state's five most populous counties.

Who controls the wages of the county supervisors?

The Legislature! (San Francisco, a chartered board being and exception).

This bill provides for assemblymen getting a raise whenever they wish. They do it by the simple expedient of raising the pay of four of five boards set as criteria.

We have espoused the theory of normal increments for deserving oficials, but I hardly think the officials themselves are the ones to decide how often and how much they want to make as salary income.

That would be perpetual motion at the taxing hog trough!

Jim Spears, local automan, who is on practically every committee started in Lemon Grove came up with one he says he started himself.

"I have just accepted the chairmanship of the L. G. Committe Of Those Who Will Not Serve On Anymore Committees," he announced solemnly at the chamber of commerce meeting last week.

☆ India's revered leader, Mahatma Gandhi, once said, "I value individual freedom but you must not forget that man is essentially a social being. He has risen to his present status by learning to adjust his individualism to the requirements of social progress. He must be willing to submit to social restraint for the sake of the wellbeing of the whole society."

Economics Class Starts Next Week

A course in elementary economics will be offered again in Lemon Grove, starting September 17 by the Henry George School of Social Science of San Diego.

"ONE FAITH"

A friend of mine has said, "Many roads lead to the cross, but there is only one road when you get there." Many and varied experiences lead us to the place where we stand face to face with Christ. There is only one way to salvation when we get there and that is to trust in His death and resurrection. All who are God's children have this common faith.

'Difficulties' Topic At LM Church

"Difficulties of Disbelief" will be the sermon topic of the Rev. William T. Nichols for the 9:45 and 11 a.m. services in the Vista La Mesa Christian church this Sunday. The junior choir will sing "His Own Church" and the sanctuary choir will sing "A Mighty Fortress Is Our God," in the two services.

TV, Hi-Fi Store Open For Business

Rapidly-growing Lemon Grove added another business house this week when Hamilton "Ham" Bowen opened Bowen's Television and Hi-Fi Sales and Service at 7769 Broadway. Grand opening is set for September 19.

Bowen has been a resident of this area since 1932 and has been in television repair work for nine years. He lives with his wife, Margie, and four children at 7625 Canton drive, Monterey Heights.

The new business will feature television and Hi-Fi stereophonic record players, Bowen said.

Ernie Robbins will be in charge of service repairs.

Phyllis Tubbs To Wed LG Man

Mr. and Mrs. Lon Frank Tubbs of San Diego announce the engagement of their daughter, Phyllis Tubbs, to John Orestes Halvorsen, son of Mr. and Mrs. Linn Halvorsen of 6777 Central street, Lemon Grove.

Miss Tubbs attended San Diego State College. Mr. Halvorsen is a graduate of the same college. He was affiliated with Sigma Pi Fraternity. The wedding date has been set for early next year.

☆ Like America's own founding fathers, the great Indian spiritual leader Mahatma Gandhi was an implacable fighter for freedom of thought and worship. He once said, "no school of thought can claim a monopoly of right judgment. We are all liable to err and are often obliged to revise our judgments. . In a vast country like this, there must be room for all schools of honest thought."

Record LG School Tax Rate Set

ger for the Lemon Grove school district, said he had expected a much smaller increase in tax rate. Part of the difference comes from the assessed valuation of the district rising but 11 per cent. His calculations were based on an increase of 15 per cent. This gives the district less tax base.

This affected an over-ride tax election which is scheduled for October 7 to extend a tax for school operation. Originally planned for $1.40 per $100 assessed valuation it would have been $30,000 shy of producing the necessary $280,000. Voters will therefore be asked to approve an over-ride rate of $1.65.

Most dramatic increase is in the state aid and bond repayment departments. The increase in these categories equal 30½ cents for a new total of 79 cents. Reynolds said the district had hoped this would be only 45 cents. Last year it totaled 49 cents.

Pyramiding state bonds repayment (approximately $250,000 this year) resulting from the district becoming ineligible for payment derferrment and an additional $20,000 obligation redemption figured in this year's budget although it doesn't become due until January of next year, plus another $20,000 demanded as reserves for redeeming next year's obligations becoming due prior to the 1959 tax collections are all contributory causes to the record rate hike, Reynolds said.

State school building repayment increase stems from the board's decision in 1957 to build

the 14 room San Altos school before the district went on double sessions. Under state aid, or "impoverished" conditions, the district could have called on the state for enough aid to build three rooms at San Altos. The remaining 11 would have waited until next year when district children would have been "on double sessions, unhoused or overcrowded."

There will be only 25 days of double sessions this year and only at one school . . San Miguel. This school will house San Altos students until the school is completed early in October. Set to be finished for the start of the school year the schedule fell behind when heavy rains delayed the start.

At the Monday meeting the board rejected a request to withdraw a protest they had lodged against an application of the Food Basket for an off-sale beer-wine license.

Grossmont high school district was up in the state building and bond repayment deportments a total of 14 cents. High school total rate will be $1.91 up .1931 over the current rate.

Lewis Smith, high school district superintendent, said the building fund repayment increase of .0742 could have been dropped. He elected to charge it in order to complete the district's obligation to the state, thus making it eligible for a 40 cent tax rate ceiling instead of 48 cents as it suffers currently.

44,000 Population Forseen By 1970 For Spring Valley

The survey report for a Spring Valley local form of government, which was made up by the San Diego State college Public Affairs Research Institute, was received last week and is now being distributed in the Spring Valley area, according to Chet Smith, chairman of the survey committee of the Spring Valley chamber of commerce. Population of 44,000 is seen by 1970; 65,000 by 1990 is indicated by the study. Smith said that 300 copies of the report entitled "Spring Valley—Today and Tomorrow" have been printed. Each contributor to the survey fund will receive one copy and extra copies may be purchased at cost, which is $1.50, Smith said.

These events took place before the survey was undertaken:

The Spring Valley chamber of commerce, at a board meeting in January of this year, voted to have a survey made of Spring Valley, to determine what form of local government would best suit the area. The discussion on the subject was made because of Lemon Grove's problem of incorporating and the City of San Diego's annexing of other larger communities.

SURVEY COST $1,500

It was decided to contract with the Public Affairs Research Institute of San Diego State college to make the survey. The college group, headed by Dr. Don Leiffer, pointed out that it would take quite a while to make the survey and that the cost would be $1,500, the money going into a college fund for the furtherance of the Institute's work.

The Spring Valley chamber of commerce and members started the ball rolling by donating over $1,000 toward the fund. The balance of the money was raised by voluntary contributions of S.V. organizations and individuals.

The following are a few excerpts from "Spring Valley—Today and Tomorrow."

"Spring Valley holds the promise of becoming one of the most attractive residential areas in the country. Its rolling hills, temperate climate, and nearness to the open countryside are Southern California at its best. In addition, its closeness to the metropolitan center of San Diego provides all the cultural, educational, recreational as well as business and commercial advantages of living in a major city. Present population of the area is approximately 17,000, and there are about 4,500 dwelling units.

"Local political independence is always attractive if the price is not too high. With this in mind, the Spring Valley chamber of commerce last January contracted with the Public Affairs Research Institute at San Diego State College to provide answers to whether the area known as Spring Valley could be kept intact as one community and, if so, the most feasible means of providing the governmental services which it now needs and will probably require in the near future.

13 SQUARE MILE AREA

"The area studied comprises approximately 13 square miles (an area twice as large as La Mesa and more than 2½ times larger than Lemon Grove) and the boundaries are basically those of the outer limits of the local service districts. Assessed valuation of property subject to taxation amounts to approximately $11,500,000.00. Spring Valley seems right now to be at the beginning of a large scale residential expansion, with several proposed developments underway or about to begin. Population will almost triple in the next decade. In 1970 the population is expected to be 44,300; in 1980 - 55,900, and in 1990 - 65,400.

"The report discusses four real government options which at present the area may choose from: (1) Creation of a county service area, (2) annexation to La Mesa, (3) annexation to San Diego, (4) incorporation, and the report discusses the advantages and disadvantages of each.

"The report finds that at present, Spring Valley needs additional planning and zoning, more police protection, (although at present there is no real problem of crime in the area), better road and street maintenance and improvement. Sources of revenue for these additional needed services, including the property tax base, are presently relatively inadequate for providing for this high level of services, particularly if the region attempts to pay for these services by itself.

TAX RATES TABLE

"A table shows comparative tax rates and tax bills for Spring Valley. As an example, and illustration using a combined assessed value for land, improvements and personal property of $3,500.00 with a real value of $14,000.00 was used, under the present situation, taxes would be $283.99 - if incorporated, taxes would be $313.74 or an increase of nearly 10½ per cent. Taxes after annexation to San Diego would decrease $4.85. Taxes if annexed to La Mesa would be $301.19, an increase of 6 per cent and as a county service area $317.17, an increase of 11.6 per cent.

"In all probability the highest level of services would be gained by annexation, and the lowest through incorporation or a county service area. This is due to the fact that basically services in Spring Valley would be paid for mostly by the general property tax, and at present the per capita assessed valuation is low. Should Spring Valley decide to incorporate, and attempt should be made to attract considerable industry and commerce to lessen the dependence on the property tax.

"Incorporation would insure to Spring Valley complete local control over most of its governmental services, and, of all the alternatives, would give the area the greatest degree of freedom in determining the direction of its development. A proposed minimum budget for a "City of Spring Valley" is included in which the per capita expenditure would amount to $24.96.

NO CHEAP WAY

"The chapter on "Future Service Needs" says there is no cheap way to provide adequate municipal-type services, and the more services and quality desired, the higher the cost."

It will be noted that in the report, the name of Lemon Grove was mentioned but once. That is because Lemon Grove itself at the time this report was being assembled, was in the process of assembling data for its incorporation election, which is to be held in November.

As a finale to the present report, Chet Smith, committee chairman of the survey, had this to say:

This report sounds a warning to the people of Spring Valley.

"As of now we have no major problems - but the tremendous population increase in the next few years can create major problems unless we start thinking and preparing for future needs now. Today's minor problems may be major ones tomorrow.

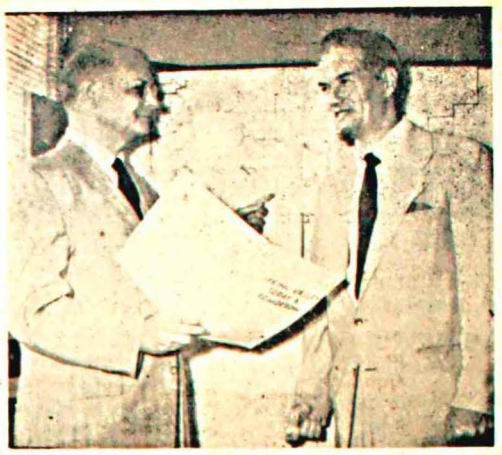
"Spring Valley Today and Tomorrow" should be read by every citizen of Spring Valley.

JOB NOT OVER

"Our destination is not yet in sight. This is preliminary and while it contains a tremendous amount of information, it is not all of the information needed to enable Spring Valley to decide on a course for the future.

"If this survey starts the people of Spring Valley thinking about the future and the problems we face, all concerned with this report can say "mission accomplished."

"When all organizations in Spring Valley have studied this report, meetings will be scheduled to unify the thinking towards future action."



STUDY REPORT—Dr. Don Leiffer, left, director of Public Affairs Research Institute of State College, and Chet Smith, survey committee chairman and treasurer of Spring Valley chamber of commerce, discuss contents of report made of the Spring Valley area by the research institute.

A Message of Appreciation

to the Good People of Lemon Grove

We would like to express our appreciation to our many friends and customers whom we have served during the 13 years we have operated the Avalon Cafe. It has been most gratifying to be a part of Lemon Grove and to take part in community affairs. We would also like to take this opportunity to wish success to the new owners of the Avalon Cafe, Mr. and Mrs. Leon "Lee" LaThimesche. They have assured us they will maintain the same friendly, homelike atmosphere, the same low prices and the same generous portions of good food. While traveling and fishing we will be thinking of our many good friends we have made in the Lemon Grove area and will probably become a little homesick. We thank all of you from the very bottom of our hearts. God bless you.
